Sanitary / Regulatory statement

This plant peptone is classified animal-free by SOLABIA S.A.S. Based on the manufacturing protocol, we attest that no animal raw materials are prescribed for use in the production this product nor are any of the raw materials derived from animal products. Also, to the best of our knowledge, the product contains no genetically modified organisms as defined by current legislation for labelling (absence = less than 0.9%).

OBSERVED MICROBIAL GROWTH POTENTIAL :

Laboratory tests demonstrate excellent growth of a wide variety of microorganisms, including fastidious bacteria. Used in cell culture as a growth supplement, it may allow a reduction in the amount of bovine origin products used with similar results. It can be recommended for either a replacement for bovine substrates or as a stand-alone peptone for fermentation. Results may differ depending on individual laboratory conditions and for other genera, species and strains.
